Listener Platform		
Web Browser	✓	✓
IOS mobile app	✓	✓
Android mobile app	✓	✓
Local wifi streaming – Stream interpretation from the interpreter’s or original audio feed to the listener’s phone via a wifi connection. Perfect for: - Avoiding roaming fees during international events - If the venue has limited data connection access	✓	✓
Online streaming – Stream the audio to the listener’s phone via mobile data or other internet connection. - Listeners can access the interpretation or audio of the original language from anywhere in the world - Ideal for presenting poster sessions	✓	✓

Interpreter Platform		
MAC OS	✓	✓
Windows	✓	✓
Online streaming for remote interpreters is like having a professional interpreter in your pocket! It allows you to participate in any event in the world. The audio is streamed to the interpreter who then streams the interpretation back to the listener’s phone.	✓	✓
Onsite interpretation - this allows you to stream audio from onsite interpreters via laptop and microphone.	✓	✓

Onboarding		
Custom onboarding guide to installing our solution - Communication package - Best practices - Personal assistance - one-to-one training	200\$	✓
Technical onboarding - Our team will test your network and ensure it is running smoothly before your event	✓	✓
Communication material in all languages: intro slides for the beginning of the event, fliers, QR code to install the App	✓	✓

Support		
Online FAQ	✓	✓
Online Support – Translator.FM support staff are readily available and easily reachable via chat, email and phone.	✓	✓

Back Office		
Create and edit your own events	50\$	✓
Real-time statistics - see the number of real-time listeners.	100\$	✓
Custom report - receive full analytics and statistics after the event	50\$	✓
Listener feedback - get immediate feedback from the client after the event.	100\$	✓
Customised interface (with your logo)	50\$	✓
Record audio – Automatically record the audio of your event with zero hassle.	50\$	✓
Stream translation over video – Add live interpreting to your video stream	100\$	✓
